Imagine you're going close to it, and it lights up, and it automatically opens. Okay, you can automatically open it. Okay,

Unknown 0:12

what am I doing?

Unknown 0:16

You don't need to. We can explain it. So, it stores a lot of history that's happened in UQ, and you can listen and discover what people have left behind, and you can also add to it. So it's something that keeps building for the future students and for the past.

Unknown 0:30

Yeah. Can I listen and discover?

Unknown 0:31

Yep.

Unknown 0:32

Beautiful. I could hear as well. This is the people that happened here. Can I go this? Ooh, surprised me. Your missive was like hi. How do you want to launch it?

Unknown 0:46

Public assembly has been restricted, and marching is technically illegal. So they sit down right there on the street. Dozens of arrested. It's remembered today as the civil wars.

Unknown 1:09

Just like snippets. Okay.

Unknown 1:12

So can I read these? You can. Okay. Cool. Do I just press done? Okay. There's something behind. Oh, I'm not sure. Not much happens to me in this universe. I can relate. I'm just here because my class is weird. Um, a fact, something you know about the spirit, something you saw part time. Can it? Does it have to be serious? Nah. Okay. Can I say that my gave

Unknown 1:51

us something juicy?

Unknown 1:54

What happened? Someone sat here after you. What would you want them to find? Can I say that my cousin got attacked by a bird here? Yo, let's put that on. Be careful from the birds. From my experience, a friend got attacked right with you. Can I put a wink face? Yep. Beautiful. Okay.

Unknown 2:40

Okay.

Unknown 2:40

I'm done.

Unknown 2:41

I guess. How was your experience with it? Would you interact with something like this?

Unknown 2:45

Yeah, I mean, it's it's a nice idea, very nice. I think it's good, like, to get more people talking to each other in Instagram. Yeah, you know. Okay, I think it's good. Good on you guys. I like this.

Unknown 2:58

Okay. Would you want the video to be longer, shorter in a real format. Any ideas on that?

Unknown 3:04

Probably a little less like intense right from the start. It was a

Unknown 3:09

badly generated video. I'm so sorry for the

Unknown 3:11

moment. But like other than that, it's yeah, no, I wouldn't change much about it. It's nice. It's easy. If it was a bit longer, it's just more people. Yeah, more have patience for that. Like

Unknown 3:22

great cheat. cute. Okay. Thank you so much for your

Unknown 3:25

time. Of course

User Testing 2

Unknown 0:03

Yes.

Unknown 0:04

Nursing and also.

Unknown 0:30

into Brisbane, straight into a race line. Public assembly has been restricted, and marching is technically illegal. So they sit down right there on industries. Dozens are.

Unknown 0:50

so forgive us for the badly generated video. Oh no, that's

Unknown 0:53

fine. That's fine. Yeah. Our first session showed

Unknown 0:55

us. Yeah. That's

Unknown 0:57

cool. That's cool.

Unknown 1:00

But like you can leave behind comments and interact with it. Would you want to leave behind something or? I mean, like in a very unbiased way. Yeah, you can be mean to

Unknown 1:10

us. It's kind of cool to. Where was this? I got Roma Street. Was that what

Unknown 1:23

it said? And into Brisbane, straight into a police line. Public assembly has been restricted, and marching is technically illegal. So they sit down right there on Rome Street. Dozens are arrested. It's remembered today as the civil limited march. This happened in

Unknown 1:47

like 1971.

Unknown 1:48

Oh, cool. Okay. I mean, I'll just say, felt that. Yeah, that's pretty cool. Would

Unknown 1:55

you be inclined to leave something behind?

Unknown 1:57

Let's see. I'm not gonna lie. I haven't been here for too long, so I'm still kind of trying to figure out everything. But let's see. So, what would be like the photo, like me in it? Oh,

Unknown 2:10

that's awesome. With you in it, or maybe just like how it looks right now. Anything? Okay. Well, yeah, that's definitely. No, but it doesn't have a back camera, so yeah. You're gonna dig your

Unknown 2:22

photo. I think actually I'll write something cool. I think yeah, I just figured out there's like a there's like there's like an edible garden. Have you guys ever seen that? There's like yeah, one of my pasta. There's like a there's a garden over there that has a bunch of like the native kind of like like it was like a bunch of the native like berries and plants, which is really cool. It kind of gets passed by.

Unknown 2:51

Is it like a community garden?

Unknown 2:54

I don't know if it's necessarily a community garden, but it's kind of it was planted there, and I think it's for it's to say like what was here, like before it was all like. Okay. And then I'll just go. I'm done. Yeah. Cool. Sweet.

Unknown 3:45

So we wanted to know. So if there was like this kind of an installation place near where you usually sit and chill, would you interact with something like that?

Unknown 3:54

I think it'd be cool. Yeah. I I would say probably especially for people who are like new to campus or maybe visiting because like UQ is a really nice campus and people probably come for other reasons than just studying here. It'd be really cool. I do think for your average student, it'd be kind of like iffy because it's more of it could be seen as more of like a kind of like a show or display thing, almost like you're like a theme

Unknown 4:20

park.

Unknown 4:21

But I do think it's valuable to have that, and then it's cool to collect that like record of how it changes as well too. So I think it's a good idea. I just don't know how your average student would interact with it as much, but I definitely let's say like families visiting, I think they will interact with it quite a bit too. If you

Unknown 4:40

had any suggestions to improve the experience or add something to it? Do you have anything like as a student, what will maybe like pull you towards it?

Unknown 4:48

Well, I think well, one thing like I guess if you were to make this, you'd have like the camera there. I think that'd be really good. Yeah, because also, and yeah, I think in general, like, it's I like the insight part of it too. That's really cool, but also just having like making it very easy for people to just be like, you know, click, click, you know, because a lot of students, you know, like me, I'm I'm in between classes. I don't have a lot of thought power, sort of for me to reflect again. It's a little it's a little bit of thinking, you know. But so like someone, yeah, like leaving a picture or like kind of like a little voice note would be cool. Of course, you can kind of you could get many things happening there, which may or may not be okay. But it would be cool though, you know, just to have those. I always find it's really cool when you have like something interactive, like a photo thing like that. Yeah.

Unknown 5:41

Okay.

Unknown 5:41

So the other option was like leave something behind. So there, there are like video stuff. Yeah. You can leave behind an audio.

Unknown 5:50

I think that is cool. Yeah, definitely. I I think it's a really cool idea. If

Unknown 5:54

there was something like a reel-based viewing thing, like you said, you don't want to really click on a lot of stuff and go through. Yeah. Would that be something that it would interest you?

Unknown 6:02

Ah, yeah, yeah, I think it would. It's also like, would you be placing this like around the campus? Yeah, so ideally.

Unknown 6:10

Yeah, like basically places where you have a seat and you chill. Oh yeah, the benches here and there. Yeah,

Unknown 6:18

that'd be kind of cool. Kind of like replacing like the information type of things, yeah, I think that would be cool. And then yeah, just having something that kind of, or at least you can see what people leave behind very easily would be really cool. Yeah.

Unknown 6:30

Yes. Okay. Okay. Awesome. Thank you so much for your time.

Unknown 6:34

Yeah. No worries. Yeah. I think it's a cool idea. So.
